

# Event Aggregator & Manager

Every event. One place.

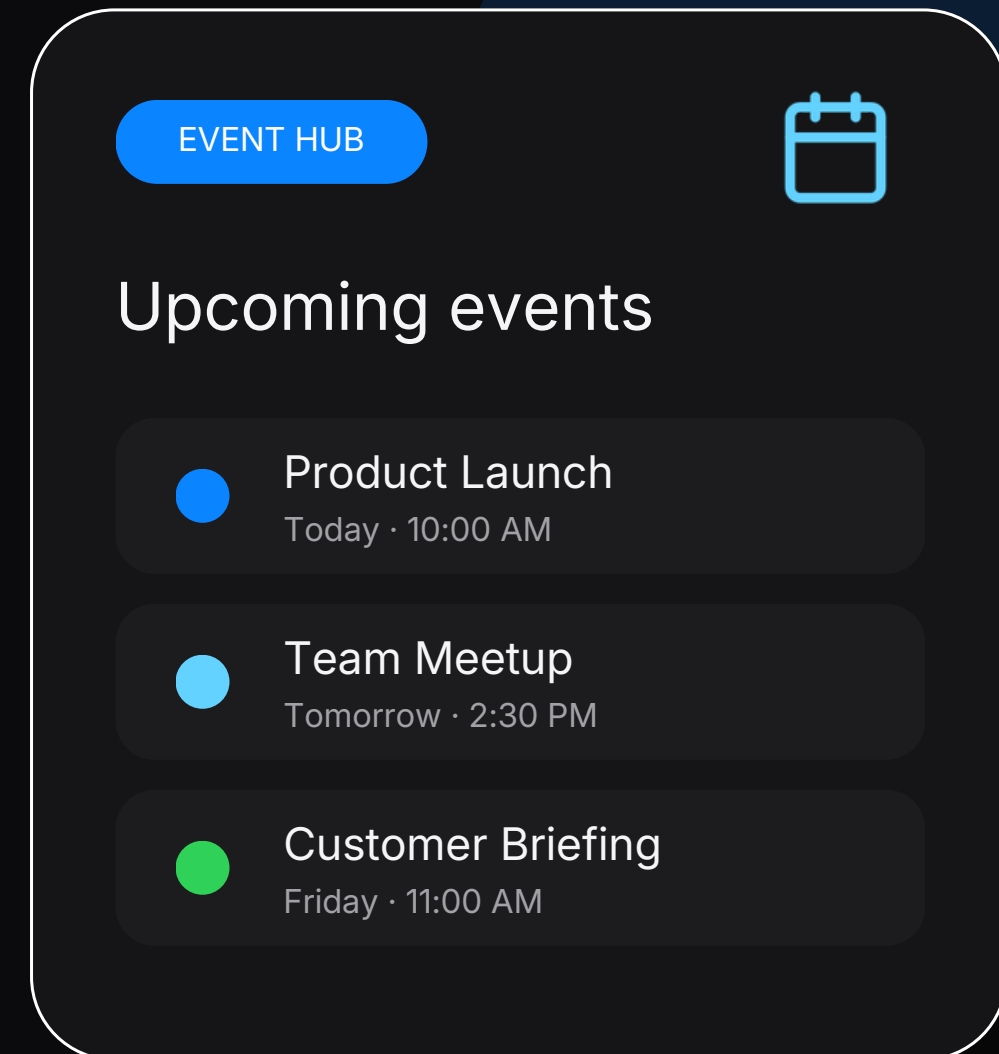

A simpler, more connected workflow for  
discovering, organizing, and managing events.

EVENT OPERATIONS

PRESENTED BY

01 — THE IDEA

# One place for every event.

A unified platform keeps event information, registrations, updates, and operational work connected.

02 — THE CHALLENGE

# Too many tools create too much friction.

When event work is split across channels, simple tasks become harder than they need to be.

01

## Scattered information

Details are difficult to find and compare.

02

## Difficult tracking

Capacity, attendance, and registrations lack one view.

03

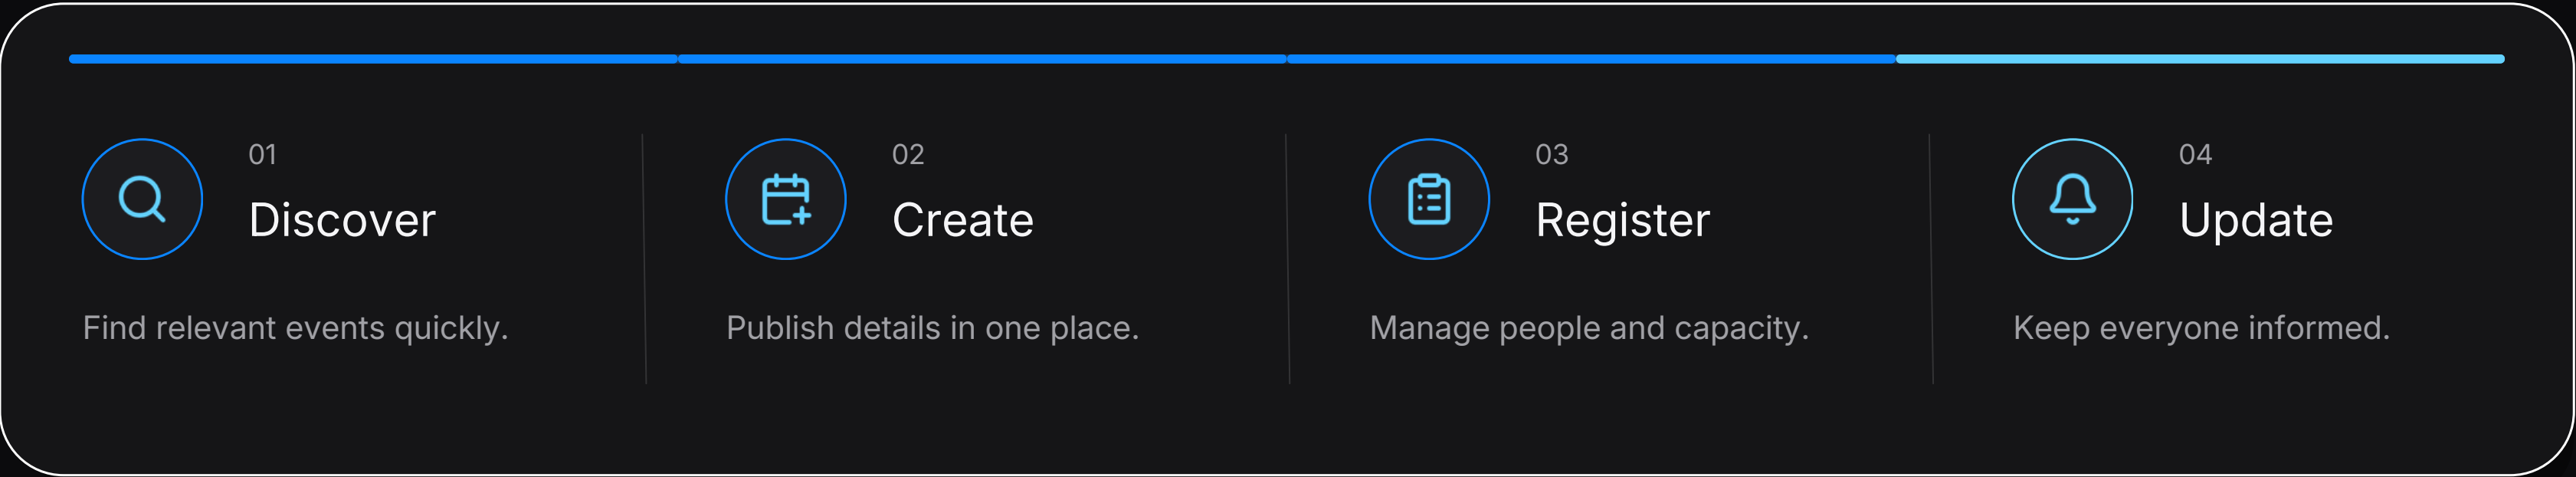

## Manual effort

Updates and coordination consume valuable time.

03 — THE SOLUTION

# One flow. From start to finish.

A clear journey for users, organizers, and event operations.

# Built for today. Ready for what's next.

## VALUE TODAY

### Less friction. More clarity.

- Faster event discovery
- Less manual coordination
- A more consistent experience

## FUTURE-READY

### Designed to evolve.

- Personalized recommendations
- Real-time updates and analytics
- Scalable event-driven workflows
